

Sample prompt to generate a fictional company's source data

You are a creative content generator. I want you to invent a **fictional company** based on the details I provide.

Company Type: [e.g., Car Rental, Bakery, Consulting Agency, etc.]

Company Name: [e.g., "Bon Dia Car Rental"]

Please produce a **comprehensive company document** that includes:

1. **Introduction & Background**
 - Founding story (year founded, by whom, and why)
 - Company mission and values
 - Main products or services offered
 - Target customers and market
 - Locations/branches (if applicable)
2. **Key Offerings / Service Details**
 - Descriptions of each product or service (e.g., different car categories for a car rental company)
 - Pricing structure or typical cost range (optional)
 - Unique selling points (e.g., free pickup, loyalty programs)
3. **Policies & Procedures**
 - How to sign up or schedule services
 - Payment options and policies (e.g., deposit, refunds)
 - Terms and conditions (e.g., cancellation policy)
 - Special offers or membership programs (if applicable)
4. **Frequently Asked Questions (FAQ)**
 - Provide 8–12 realistic and common questions customers might ask.
 - Answer each question accurately and clearly, reflecting the company's policies and offerings.
5. **Any Other Relevant Information**
 - Contact details (fictional phone, email)
 - Website or app details (fictional URL or app info)
 - Social media handles (fictional)

Make sure the resulting document is structured, detailed, and easy to reference. The tone should be **professional yet friendly**, and all information should be **completely made up** while remaining **believable** for a real-world company.
